

Bethel Church Road Bridge Replacement Projects

Client: Center Township Supervisors, Indiana Co., PA

Year: 2017 Cost: \$700,000

As an engineering consultant to Young & Associates, Gwin, Dobson & Foreman served as the design engineer for two bridge replacement projects on Bethel Church Road.

GDFENGINEERS.COM

The first project was a replacement of an existing culvert with an aluminum structural plate pipe arch and included aluminum headwalls and wing walls over Stewart Run. In addition, a deteriorating concrete bridge was replaced with a 24 ft. span cast-in-place box culvert over Aultmans Run.
